## SUMMARY

Results-driven **React** and **Next.js** front-end developer with **6 years +** experience, proficient in leveraging a versatile skill set that includes **DOCKER**, **MUI**, state management (such as **Redux**), **API integrations**, **TypeScript**, and **JavaScript**. Adept at developing dynamic and visually appealing web applications that prioritise user experience. Skilled in translating design concepts into clean and efficient code, ensuring cross-browser compatibility and optimal performance.

## EXPERIENCE

02/2024 - Present

Dubai, United Arab Emirates

Senior Frontend Developer

**Al Ansari Financial Services**

- **Sole Developer of Remittance Fintech Application:** Independently conceptualised, designed, and developed a remittance fintech application to facilitate secure cross-border transactions.
- **End-to-End Project Ownership:** Took full responsibility for the entire project lifecycle, including planning, development, deployment, and maintenance of the application.
- **Technology Stack:** Utilized Next.js, docker and TypeScript to build a scalable, high-performance application with a focus on user experience and reliability.
- **Security Focus:** Implemented robust encryption and decryption mechanisms to ensure the security and privacy of sensitive financial data during transactions.
- **Docker Integration:** Leveraged Docker for containerisation, ensuring consistent environments across development, testing, and production stages, and streamlined deployment processes.

05/2021 - 12/2023

Dubai, United Arab Emirates

Senior Frontend Developer

**Silwana Infotech**

- Developed user interface by using the React JS, and Next.js.
- Integrated MUI components with React.js for efficient and scalable UI development.
- I utilized Next.js to develop the interface for a crypto exchange platform.
- Created & managed Ethereum wallets using web3.js for secure storage of crypto currencies.
- Developed reusable UI components with GraphQL queries and mutations, making the frontend more modular and scalable.
- I have completed the development of a crypto exchange platform called **Golex**.

12/2018 - 11/2020

Dubai, United Arab Emirates

Frontend Developer

**IMSware Technology**

- Developed user interface by using the React JS and Redux.
- Develop high performance customer facing applications using ReactJS React-Router, JavaScript, HTML5, CSS3, Prime React.
